

## ALASKA ENERGY AUTHORITY

### PROJECT MANAGER

Want to make a difference? Interested in joining a team of professionals responsible for providing energy solutions to meet the unique needs and opportunities of Alaska's communities? Then check out our **Project Manager** position with Alaska Energy Authority (AEA).

The Project Manager for the Alaska Energy Authority's Rural Programs - Manage the planning, design, and construction of rural power systems, including diesel power plants, bulk fuel tank farms, renewable energy systems, and power distribution systems. Provide technical assistance and training to rural Alaska communities in order to support the safe and reliable operation and maintenance of bulk fuel tank farms, electrical power generation and distribution systems, and renewable energy systems.

We're looking for someone who has a Bachelor's degree in Civil, Mechanical, Electrical Engineering or related field, or Project Management Certification (PMP) preferred. A minimum of 5 years of experience in the construction, operations, and/or maintenance of power and/or bulk fuel systems. Preference will be given to those with experience managing rural Alaska projects. Registered Professional Engineer in the State of Alaska preferred.

**Pay Range: \$102,297 - \$121,329/year**

For more information, or to apply online directly with AEA, visit **[www.akenergyauthority.org](http://www.akenergyauthority.org)**. Send application and/or resume to **[hr@aidea.org](mailto:hr@aidea.org)**, Human Resources, AIDEA/AEA, 813 W. Northern Lights Blvd., Anchorage, AK 99503, by fax to (907) 771-3946.

AEA is an EEO/ADA employer. Individuals requiring accommodations should call 1-800-587-0430 or (907) 465-3412 (TTY).
